Bristenstock Shim and Overlay

Qty	Proposed Service(s) & Description(s)	Depth	
392 Tons	Shim & Overlay Existing Asphalt	1.5"	\$37,240.00

Service Description
We will clean all areas in preparation for paving. We will then apply tack coat to promote adhesion between the new and old asphalt surfaces. We will then shim the areas as needed (estimated @ 1/2") to create a smooth paving surface. Once completed we will topcoat the areas with 1" of asphalt. Estimated @ 392 Tons to be invoiced @ \$95.00/Ton

PAYMENT TERMS 0 Down, Balance Upon Completion

Project Total \$37,240.00

SERVICE TERMS All permits are the responsibility of the customer and/or property owner. Please return a signed contract along with the Terms, Conditions & Guarantee page and deposit to secure scheduling. All work subsidiary to paving not specified is to be completed by other.

3% charge on credit card purchases will be applied upon payment

This proposal may be withdrawn at our option if not accepted within 30 days of Jul 21, 2020

Accepted Authorized Signature

Date: 8/6/2020

TERMS, CONDITIONS & GUARANTEE

Bryant Paving, hereafter referred to as "BP"

Asphalt Guarantee

All materials and workmanship are guaranteed for 1 year(s). Any request made to "BP" by the owner, general contractor or their respective authorized supervisory employees to overlook the standard practices and procedures previously stated in these conditions will automatically negate any guarantee of material or workmanship whether such guarantee is written, implied or orally stated. Guarantee does not cover markings from sharp pointed objects, power steering created tire marks, or drippings from solvents and gas. Guarantee does not cover heaving of asphalt, subgrade failure, settling or expansion cracks due to freeze thaw weather cycle or tree roots. Cracking in existing asphalt that is top coated with new asphalt can have reflective cracking come through the new surface over time. Asphalt is a machine laid surface which has seams that are sometimes noticeable. The surface texture of hand laid areas may not be uniform to machine laid areas, due to hand raking. "BP" shall not be liable for water ponding or retention in surrounding areas of patching due to current grades or construction method chosen. Guarantee does not cover damage caused by acts of third parties.

Sealcoat Guarantee

"BP" will guarantee sealers from chipping and peeling for a period of 1 year. This guarantee does not include wearing of sealer and adherence of sealer to oil spots, hydraulic spots and tree sap. Guarantee does not cover damage caused by acts of third parties, i.e. plows, tire chains, studded tire marks.

Terms: Terms are as stated above. If payment is not made in accordance with the above terms, the customer agrees to pay any collection, legal fees and interest for any unpaid balances. Interest will accrue at a rate of 1.6% per month from the date of completion. Terms of guarantee are contingent upon receipt of final payment.

PRICE is based on specifications and estimates as shown on the "Proposal & Agreement". Field measurements may be made when the job is completed and any changes of specifications, areas, tonnage, or gallonages will correspondingly change the completed price. One mobilization charge is included in price, unless stated on the "Proposal & Agreement". Additional mobilization charges will be at the rate set forth in agreed upon change order which is made part and parcel of these conditions and "Proposal & Agreement". Pricing for this contract is based upon current liquid asphalt pricing as posted by the State of NH DOT and is subject to escalation upon that posting.

ADDITIONAL CHARGES may become necessary if subgrade is not up to acceptable specifications or requirements or if extra services and/or materials are requested in writing by the owner or general contractor of their respective authorized supervisory employees. "BP" shall not be held liable for damage to surrounding areas of driveway or parking lot due to poor subgrade, moisture, or other unforeseen circumstance. Additional charges would be in accordance with the agreed upon change order which is made part and parcel of these conditions and "Proposal & Agreement".

Conditions: The above prices, specifications and conditions are satisfactory and are hereby accepted. You are contracted to do the work as specified and the stated payment terms are acceptable. All material is guaranteed to be as specified. All work is to be completed in a workmanlike manner in accordance to standard construction practices. Any deviation from this proposal or extra work will be executed only upon owner or owners agent orders and may become an extra charge over and above this agreement. All agreements are contingent upon delays beyond our control. We do not guarantee against pavement cracking from weather cycles and water ponding or retention due to pre-existing grade conditions. We cannot guarantee drainage or against water ponding on new asphalt without adequate slope. In flat areas water will not drain unless there is more than 1-1/2" of fall per 10 feet. "BP" shall not be liable for damage to adjoining concrete flat work by asphalt installation equipment during standard construction procedures. Proposal excludes the following unless otherwise stated in the proposal: Permits, Shoulder Gravel, Excavation, Staking, Material Testing, Sod Restoration & Landscaping, Manhole/Catch Basin/Gate Valve Adjustments or Repairs, Vegetation Removal, SAC/WAC Charges, Dewatering. "BP" is not responsible for damage to irrigation systems when not properly marked by client. Customer will be notified when work is to be performed. It is the customer's responsibility to make sure the irrigation systems are shut off as to not cause damage to the work performed.

Notice Of Lien: Any person or company supplying labor or materials for this improvement to your property may file a lien against your property if that person or company is not paid for the contributions.
